IMPRODOVA project

= Improving frontline responses to high-impact domestic violence

Goals:

- Improve **interagency cooperation** among HIDV frontline responders
- Develop and test tools for this aim
- Integrate **human factors** in FLR's perception of and intervention in HIDV cases

Domestic violence means

- „... all acts of physical, sexual, psychological or economic violence that occur within the family or domestic unit or between former or current spouses or partners, whether or not the perpetrator shares or has shared the same residence with the victim ...“ (Istanbul Convention)
- Not a family dispute!
- Perpetrator motives: power and control

Every day **8** women or more are **killed**
by their (ex-)partner or family in Europe.
